

## Social Science Data Infrastructure Workshop 2026

# From Archiving to Intelligence

Developing Interoperable and AI-Ready GIS Datasets

**Date & Time: January 22, 2026, 1:30–3:00 pm (JST)**

### **Venue: On-site and Online**

On-site: Akamon General Research Building Room 549,  
Hongo Campus, The University of Tokyo

Online: Via Zoom

### **Lecturer: Ta-Chien Chan**

(Research Center for Humanities and Social Sciences, Academia Sinica, Taiwan)

### **Abstract:**

The primary objective of this joint event is to actively discuss common issues and possibilities for research collaboration concerning the development of data archives, particularly focusing on the application of Geographic Information System (GIS) technology.

Collaboration would aim to leverage data archives and visualization services through GIS.
